## About LifeWave

The LifeWave technology was born out of three years of intense research by the company's founder and CEO, David Schmidt, into the concept of naturally increasing energy and stamina through elevation of fat burning. After developing this breakthrough technology, David saw the great need for it in the marketplace and launched LifeWave.

Today, LifeWave has grown into a global company with distribution in more than 100 countries. Our products are being used all over the world, and our customers keep coming back because they experience significant improvements in their everyday lives. We believe our products are at the front line of a biotechnology wave, and LifeWave holds the promise of a host of other products that will help people live healthier lives.

## Our Products

It's been known for thousands of years that specific frequencies of light can cause specific changes in the human body. When we go out in the sun, a frequency of light causes our bodies to make Vitamin D. Another frequency of light (UV) will cause our body to make melanin, the chemical that gives us a sun tan. **Our exclusive non-transdermal patch system utilizes this knowledge to gently stimulate acupuncture points, which have been used to balance and improve the flow of energy in the human body for thousands of years.**

The result? A natural way to improve the quality of your life without any drugs, stimulants or needles entering the body.

These products are available exclusively from LifeWave in the form of adhesive patches that produce results without the introduction of chemicals, herbs, or physical devices into the body. LifeWave is safe and natural and uses the body's own systems to accomplish these amazing results.

**All our products are produced to the highest quality standards, and are tested in rigorous clinical studies.**

## LifeWave Patches

### Y-Age Glutathione

What if you could tell your body to produce more of a powerful antioxidant that can protect you from the onslaught of toxins it encounters every day? That master antioxidant is called glutathione and has been proven to provide a long list of health benefits, such as promoting the release of stored toxins, improving overall health and minimizing fine lines and wrinkles.

Our Y-Age Glutathione patch product has been shown to raise blood glutathione levels safely and naturally – without the need for powders, pills or drinks. In fact, **a LifeWave study showed an average increase of 300% in blood glutathione levels over a five-day period.**

### Y-Age Carnosine

There is a source for vibrant health and vitality in our own bodies. It's called carnosine and clinical research on this remarkable nutrient has produced some amazing and dramatic results. Carnosine has been shown to accelerate wound healing, minimize fine lines and wrinkles and improve overall health.

While carnosine is available in large quantities in the brain, muscles and other tissues, it does decline with age. The Y-Age Carnosine patch was produced to address this issue. Results from a LifeWave study show that our Y-Age Carnosine patch has significant positive effects on the bioelectrical properties of the body.

### **Energy Enhancer**

Our Energy Enhancer patches stimulate acupuncture points to naturally increase energy and stamina – bringing you focused and sustained energy as opposed to the spike and crash of stimulants.

There's a reason top athletes around the world use Energy Enhancer to help them compete at their highest potential: it works. In fact, LifeWave studies show an *increase in energy and strength endurance within minutes of use*, and **an increase in fat burning of more than 20%** overall at the end of a 30-day period.

### **Silent Nights**

Sleep not only helps you perform at your peak potential, but studies also show a strong link between sleep and health. Yet, sleeping patterns change with age and we get less nighttime sleep as we get older. But our *need* for sleep remains the same. The answer doesn't have to be in the form of a sleeping pill.

Our Silent Nights patch is a safe and natural alternative for improving sleep. The patches are applied to acupuncture points that have been used to improve sleep for thousands of years – a safe and effective method for restful sleep.

### **SP6 Complete**
